Standard materials of construction

Bellows: A240 T321.
Line Pipe: Standard Wt. (A53-B/A106-B).
Outer Shell: A53-B/A106-B/A516-70.
Rings: A-36/A516-70.
Flanges: 150 psig Designs; 150# ANSI B16.5 RFSO (A105)
300 psig Designs; 300# ANSI B16.5 RFSO (A105).

- Cycle Life = 2,000 minimum (EJMA).
- For anchor details, please see anchor table (Page 74).
- Maximum Test Pressure is 1.5 X Rated Pressure.
- Pressure Rating is based on a design temperature of -20° F to 650° F. If flanged ends are specified, the maximum temperature rating for 150 psig design is 500° F.
- Maximum Axial Extension is 15% of Axial Compression Value shown above.
- Maximum installation misalignment is ± 1/4" axial and ± 1/16" lateral.

Standard materials of construction

- Bellows: A240 T321.
- Line Pipe: Standard Wt. (A53-B/A106-B).
- Outer Shell: A53-B/A106-B/A516-70.
- Rings: A-36/A516-70.
- Flanges: 150 psig Designs; 150# ANSI B16.5 RFSO (A105)
- 300 psig Designs; 300# ANSI B16.5 RFSO (A105).

- Cycle Life = 2,000 minimum (EJMA).
- For anchor details, please see anchor table (Page 74).
- Maximum Test Pressure is 1.5 X Rated Pressure.
- Pressure Rating is based on a design temperature of -20° F to 650° F.
- If flanged ends are specified, the maximum temperature rating for 150 psig design is 500° F.
- Maximum Axial Extension is 15% of Axial Compression Value shown above.
- Maximum installation misalignment is ± 1/4" axial and ± 1/16" lateral.

Externally Pressurized Expansion Joints (FX)

20" & 24"
Nominal Diameter

UNIT TYPE

XSO = SINGLE W/O ANCHOR
XSA = SINGLE W/ ANCHOR
XDA = DUAL W/ ANCHOR

ENDS

FR = FIXED RFSO FLANGE
WS = WELD END STD. WT. PIPE
WH = WELD END SCH. E.H./80s PIPE

XSA (FR-FR)

NOTE: THESE ANCHOR BASES ARE DESIGNED AS INTERMEDIATE ANCHORS.
 IF MAIN ANCHOR DESIGN IS REQUIRED PLEASE CONSULT FACTORY.
 ALL DOUBLE EXTERNALLY PRESSURIZED EXPANSION JOINTS ARE FURNISHED WITH AN ANCHOR BASE AS STANDARD.
 SINGLE EXTERNALLY PRESSURIZED EXPANSION JOINTS CAN BE PROVIDED WITH ANCHOR BASES IF SPECIFIED.
 PLEASE SEE INDIVIDUAL DATA PAGES FOR DIAMETER, OUTER SHELL O.D. AND OVERALL LENGTH.
